### **LT Enterprises, Inc. Achieves AS 9100 and ISO 9001 Registration.**

Registered to  
AS9100 Rev B  
(with ISO 9001:2008)

FAIRFIELD, Ohio – January 12, 2010 – LT Enterprises, Inc. announced today that they received their AS 9100 and ISO 9001 registration in early December 2009. LT Enterprises' manufacturing center of excellence is located on a 12-acre campus in Fairfield, Ohio between Cincinnati and Dayton. Its 60,000 square foot showcase facility is clean, modern, and environmentally controlled as it is designed for operational efficiency and workflow enhancement. LT Enterprises' high performing workforce can operate as required to deliver on time - every time.

"Achieving our AS 9100 registration has enabled us to already capture two Aerospace clients," said Kirk A. Tepe, President of LT Enterprises, Inc. "We are proud to offer quality manufacturing services to our clients throughout defense, aerospace, oil & gas, alternative energy and contract manufacturing markets."

### **Providing Precision-Machined Parts and Exceptional Quality Service**

LT Enterprises, Inc. offers the following core manufacturing capabilities:

- Precision machined parts – featuring a Mazak Vortex 5 Axis Vertical Machining Center
- Waterjet cutting services – featuring OMAX and Flow machines
- Innovative manufacturing and machining techniques
- Design Support and Services – enabling cost effective manufacturing
- Logistics Support – value added services

LT Enterprises, Inc., a veteran owned small business, will have its manufacturing capabilities on display during the **Marine West Exposition** at Camp Pendleton, CA January 27-28, 2010. Please visit us at booth 2148. For additional information concerning our equipment portfolio, please visit our website at [www.ltenterprises.com](http://www.ltenterprises.com).
